This letter has been written to confirm that the **Formative Loop Math Fluency Program**, is a **sole source product**. The software is created, sold, and hosted exclusively by Formative Loop, Inc.

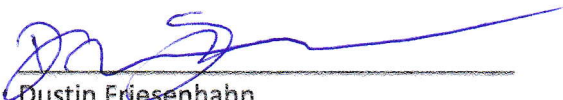

Formative Loop maintains all copyright privileges for their products and these products must be purchased directly from the company. There are no agents or dealers authorized to represent these products and no sub-license exists for a similar or competing product.

Formative Loop is a unique technology to run a math fluency program where each student can progress and master skills at their own pace and ensure no child falls behind. Teachers and administrators login to the website to track progress, and the system prints out assessments for the individual student each day. These paper exercises are more familiar and accessible for math, and allow the program to be run efficiently inside the classroom without requiring the time or expense of a computer lab.

Formative Loop has exclusive distribution and marketing rights and warrants that no other items or products are available for purchase that would serve the same purpose or function as the above-named product.

If you desire additional information, please contact the number above, or by e-mail, info@formativeloop.com.

Sincerely,

Dustin Friesenhahn
Co-Founder
